Clinical Officer Kits

The following items are required to make up basic extraction kits for Clinical Officers who successfully complete Bridge2Aid's Urgent Dental Treatment Training Programme.

Instrument tray
Instrument forceps
Mouth mirrors
Explorers (probes)
Periodontal Probe
Hand Scaler (moon shaped)
Tweezers
Scissors
Right Upper Molar Forceps
Left Upper Molar Forceps
Lower Molar Forceps
Lower Premolar forceps
Straight elevator (no 33)
Straight elevator (no 34)
Torch light
Needle Holder type Hegar

If you can supply any or all of the above, please package securely in a padded envelope and send to:

Bridge2Aid
PO Box 649
Chichester
PO19 9JB

We send regular consignments of instruments so there is no closing date.

Thank you.
